

Driving Performance Reporting

Driving Performance Reporting provides fleet managers the tools they need to measure, monitor, coach and improve driving behavior.

The operational costs of trucking are high, and no matter what type of fleet you have, margins are thin. Fleets are looking for any way to get the most out of their drivers, trucks and overall fleet. XRS gives fleet managers and owners detailed insights into the most important cost drivers for the fleet.

Features

- Fleet Performance Dashboard focuses on metrics designed to improve a fleet's overall performance.
- Fuel analysis: a high level report and dashboard displaying driver, vehicle and organizational metrics for MPG, Idle (and fuel), speeding.
- Users can drill into insight on idling for a stop by stop location, arrival time, stop duration, engine run time, idle time, idle fuel, PTO time, PTO fuel.
- Speeding reports for driver, vehicle and organizational metrics based upon exceeding a configurable maximum speed for a configurable grace time. Rapid speed changes are uncovered highlighting possible incidents of unsafe driving.
- Trip reporting for all stop locations, arrival times, stop durations, delays and times, all drive segments, miles, fuel consumed. Get the full picture of where your drivers are spending their time each day.
- An operational profile with performance by speed bracket which provides insights into brakes per mile, progressive shifting patterns, idle wear, brakes per mile and progressive shifting patterns.

Benefits

- Quickly identify your top, and bottom, drivers on each performance metric, giving you a quick method of where to incent the best, and coach the rest.
- Reduced fuel and labor expenses – easily paying for any system use.
- Coaching tool for drivers – more than just a method collect data, the operational profile gives safety and fleet managers tangible ways to improve driver behavior. By showing items like gallons per speed bracket managers can quickly show how better driver behavior can lead to overall fleet performance management, allowing customers to construct incentive programs that target the right behavior.
- Easily drill down from top level organizations and dashboards into actionable data. Dash board views quickly convey the critical data needed for improvements.
- More in-depth reporting on detailed performance metrics on categories that matter.
- Dashboards with the ability to individual views – you don't need to start with a driver to get to detailed metrics, Visually driven to quickly find pains and areas for improvement.
- Detailed insight and documentation into report creation.
- Data can be viewed by the driver on their personal device.
- Fleet managers can see all data on any device without the need of additional applications.

Getting More from Your Technology Investment

The Omnitracs Alliance Program facilitates integration of Omnitracs solutions with other leading companies that provide complementary technologies and services. This program taps into the power of integration in order to best meet the needs of our shared customers.

We offer Omnitracs Professional Services to all sizes of fleets to help you utilize our applications and our partners' applications in the most efficient way. Our assessment, integration, custom development and programming, training, business intelligence, and predictive modeling services deliver practical solutions. This critical information increases your productivity and efficiency, so you can both grow and differentiate your business.

The Omnitracs Services Portal provides access to a suite of web-based fleet management applications, including satellite mapping. Data from the Services Portal can be integrated into your existing enterprise systems.

About Omnitracs, LLC

Omnitracs is the global pioneer of innovative and comprehensive fleet management solutions transforming the transportation industry through technology and insight. Omnitracs' more than twenty five years of leadership and experience uniquely positions it to serve the industry's needs for seamlessly integrated compliance, safety, productivity, route planning and delivery, analytics, and transportation management system solutions. Omnitracs' more than 1000 employees deliver software-as-a-service based solutions that help more than 40,000 private and for-hire fleet customers manage over 1,500,000 mobile assets in more than 70 countries. Omnitracs' portfolio encompasses Omnitracs Latin America and the solutions formerly known as Roadnet Technologies, XRS Corp, Sylectus, and Omnitracs Analytics. Omnitracs is a member of the Vista Equity Partners group of companies.

Learn how you can use our applications, platforms, and services to reduce costs, increase profitability, and stay competitive. Visit www.omnitracs.com and let us show you how you can save time and money.
