

Tire Management

Vehicle Tire Status

Extend the life of your tires.

Today, more and more fleets are realizing the benefits of proactive tire maintenance, including improved safety, lower operational costs, and enhanced customer satisfaction. As part of our Vehicle Diagnostics suite, Omnitracs offers two applications—Tire Pressure Monitoring and Trailer Tire Inflation Alerts—to provide your fleet with near real-time notifications of events that affect the health of your tires.

Tire Pressure Monitoring integrates Omnitracs' Mobile Computing Platforms (MCPs) with supported tire pressure monitoring systems to provide near real-time visibility of tire pressure data. The application displays a graphical tire health indicator on the MCP and the host user interface that color codes the severity levels of active tire issues, such as under inflation and over inflation, allowing you to address the most critical.

With Tire Pressure Monitoring you can extend the life of your tires, reduce expenses and prevent accidents caused by improper tire care.

Features

- Provides near real-time visibility of tractor and trailer tire conditions, including under inflation and over inflation, as defined by supported tire pressure monitoring systems
- Displays a graphical tire health indicator on the MCP and the host user interface that color codes the severity levels of active tire issues
- Allows drivers to view available data on the graphical tire health indicator, such as current tire pressure, temperature, location, and time of last measurement
- Offers the ability to send configurable alerts with tire details to drivers via the MCP, and to company personnel through the host software, SMS, and email
- Enables the back office to receive periodic tire status updates and view graphs depicting historical occurrences of tire pressure events

Benefits

- Enhance safety
- Decrease tire repair costs
- Improve tire life and fuel efficiency
- Increase customer satisfaction by reducing asset out-of-service time and late pick ups and deliveries
- Reduce the need for roadside assistance

Getting More from Your Technology Investment

The Omnitracs Alliance Program facilitates integration of Omnitracs solutions with other leading companies that provide complementary technologies and services. This program taps into the power of integration in order to best meet the needs of our shared customers.

We offer Omnitracs Technical Services to all sizes of fleets to help you utilize our applications and our partners' applications in the most efficient way. Our assessment, integration, custom development and programming, training, business intelligence, and predictive modeling services deliver practical solutions. This critical information increases your productivity and efficiency, so you can both grow and differentiate your business.

The Omnitracs Services Portal provides access to a suite of web-based fleet management applications, including satellite mapping. Data from the Services Portal can be integrated into your existing enterprise systems.

About Omnitracs, LLC

Omnitracs is the global pioneer of innovative and comprehensive fleet management solutions transforming the transportation industry through technology and insight. Omnitracs' more than twenty five years of leadership and experience uniquely positions it to serve the industry's needs for seamlessly integrated compliance, safety, productivity, route planning and delivery, analytics, and transportation management system solutions. Omnitracs' more than 1000 employees deliver software-as-a-service based solutions that help more than 40,000 private and for-hire fleet customers manage over 1,500,000 mobile assets in more than 70 countries. Omnitracs' portfolio encompasses Omnitracs Latin America and the solutions formerly known as Roadnet Technologies, XRS Corp, Sylectus, and Omnitracs Analytics. Omnitracs is a member of the Vista Equity Partners group of companies.

Learn how you can use our applications, platforms, and services to reduce costs, increase profitability, and stay competitive. Visit www.omnitracs.com/mcp200 and let us show you how you can save time and money.
