

Beyond compliant.

DOT Risk Management & Safety Compliance

Reduce Fleet Cost, Liability, and Risk

Control and Visibility Over Your Entire Fleet for an Improved Bottom Line

Keeping up with US Department of Transportation (DOT) compliance requirements can be a challenge for even the most organized of fleet managers. The vast assortment of documents needed to manage driver qualification, Hours of Service (HOS), vehicle inspections, Compliance, Safety, Accountability (CSA) records, roadside and accident reports and more, can lead to gaps in record keeping and exposure to risk. The cost of failing an audit is prohibitive; however, it is minor compared to the cost of accident litigation due to non-compliant documentation. The solution to proactively managing this risk is to talk to us in advance. At Fleetworthy Solutions, we give you the power of intelligent compliance, offering visibility and control over your fleet to streamline processes, reduce risk, and improve profitability.

Your Single Source for Risk Management, Safety, and Compliance

Our intelligent compliance platform and dedicated transportation experts support your operations with customized consulting, training, and compliance services that keep your business running strong and fully within the law. Through our unique compliance dashboard, you gain a single version of truth, integrating all your paperwork, systems, and recordkeeping into a central repository. This easy-to-use tool not only maintains your historical data for audit purposes, it also supports your strategic business decisions with forward-looking analysis. No other compliance service offers all of this in a single solution.

Run a Safer, Tighter Ship

There's no reason to sweat the possibility of a DOT audit due to insufficient records or lack of knowledge regarding requirements or best practices. Fleetworthy Solutions is your all-in-one resource, providing:

- Better fleet control through dashboard reporting on compliance and elevated risk issues.
- Objective, consistent, and uniform management and monitoring over all company locations to encourage and report compliance.
- Cost-effective, technology-based services versus costly, in-house, manual processes.
- Layered expertise to ensure program continuity over DOT risk management.
- A reliable source for local, state, and federal DOT regulations.
- Flexible program design from fully-managed services to SaaS capabilities.
- FMCSA / DOT accident record keeping online database.

"The visibility, expertise, and guidance we receive from Fleetworthy Solutions is priceless. We have visibility into our regulatory compliance like never before, which helps us make the right decisions and gives us confidence in our compliance."

DOT Risk Management Simplified

The cost in fines and downtime associated with DOT violations can be avoided using a comprehensive, vigilant, and proactive approach to DOT risk management. The problem is few fleets have the centralized recordkeeping and dedicated compliance experts to maintain the program at a reasonable cost, long term. With Fleetworthy Solutions you gain the ability to streamline your risk management processes, and also achieve the single source of truth you need to identify trends and issues to better plan your operations moving forward.

Our Services Include:

- Driver Qualification File Management
- Hours of Service/Driver Log Compliance
- CSA Scorecard Management
- Vehicle Periodic Inspection Tracking
- Electronic or paper-based Driver Vehicle Inspection Report (EVIR / DVIR) record management
- FMCSA / DOT Vehicle maintenance management
- Online driver training, testing and tracking

These bundled services allow you to pick and choose your level of support, simply billed per driver, per month. All of your DOT-required records are maintained in one place, with password protection to ensure security. And, if an audit ever comes up, we are always available to represent you on request.

Reduce Cost • Reduce Risk • Streamline Processes

Lower Risk the Cost-Effective Way

Keep your fleet free from the uncertainties surrounding DOT compliance and risk management, as you also gain 360° visibility into your operations for greater business results. Let Fleetworthy Solutions provide the end-to-end, technology-driven services you need to lower cost, reduce liability, and minimize risk.
